## Story

The Green Sage Sustainability Portfolio was founded over a cup of coffee with Asheville, NC's resident "Green Sage, Randy Talley. Randy, a natural foods pioneer, asked if we could put together a "basket of sustainable stocks." Earth Equity CEO, Peter Krull created the portfolio for Randy and soon thereafter branded it the Green Sage Sustainability Portfolio and opened it to the public.

All returns on this factsheet that are greater than one year in length have been annualized. Performance data quoted represents past performance. Past performance does not guarantee future results and current performance may be lower or higher than the data quoted. Performance results reflect performance for a model account, net of the highest available management fees, an asset based custodial transaction fee and transaction fees. Performance results reflect the reinvestment of dividends and interest. Model performance has inherent limitations. The returns shown are model results only and do not represent the results of actual trading of client assets only the tracked results of potential transactions based on the dictates of the trading strategy. The model performance by Earth Equity Advisors (EEA) based on the model portfolio, but the actual composition and performance of these accounts may differ from those of the model portfolio due to differences in the timing and prices of trades, and the identity and weightings of securities holdings.

The Green Sage Sustainability Portfolio may invest in companies with small and medium market capitalizations. Historically, small and medium-sized companies have had greater volatility than large companies.

The Green Sage Sustainability Portfolio may invest in companies domiciled in foreign countries. Investing in foreign securities may involve certain additional risks, exchange-rate fluctuations, limited liquidity, high levels of volatility, social and political instability and reduced regulation. Emerging markets are often more volatile than developed markets and investing in emerging markets involves greater risks. Given the potential increased volatility of global investments, an investment in the Green Sage Sustainability Portfolio should be considered a long-term investment.

The MSCI ACWI Index captures large, mid and small cap representation across 23 developed markets and 23 emerging markets countries. With over 8,600 constituents, the index is comprehensive, covering approximately 99% of the global equity investment opportunity set. Investors cannot invest directly in this index.
